

You'll Always Be My Hero

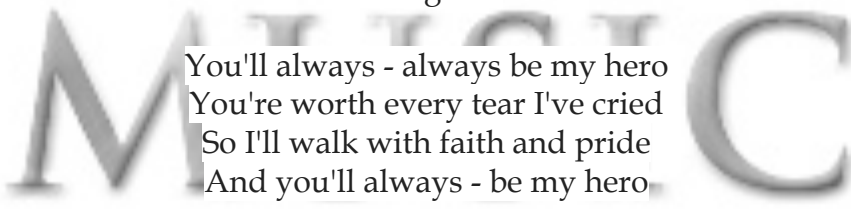

I kiss the freckles on your face
I tuck your photo back in place
I take you everywhere I go
and I tell everyone I know
That ...

You'll always - always be my hero
You're worth every tear I've cried
So I'll work with faith and pride
And you'll always - be my hero

And if they need someone to blame
I won't let them bury you in shame
They're not standing in our shoes
With a fate no one would choose

You'll always - always be my hero
You're worth every tear I've cried
So I'll work with faith and pride
And you'll always - be my hero

There's a meaning
And there's a mission
In every life
Ever given

You'll always - always be my hero
You're worth every tear I've cried
So I'll walk with faith and pride
And you'll always - be my hero

And you'll always - be my hero
